PROFIBUS power module

Product Description

The PROFIBUS power module adds additional power to the backplane of a PROFIBUS network when the headstation is no longer capable of supporting all of the DP or PA modules. Power modules can be used to create power redundancy on the backplane.

Why buy this product

- Adds additional power to the PROFIBUS backplane
- Backplane power redundancy

Key Commercial Data

Packing unit	1 STK
GTIN	 4 055626 387208
GTIN	4055626387208

Technical data

Environmental Product Compliance

China RoHS	Environmentally Friendly Use Period = 50
	For details about hazardous substances go to tab "Downloads", Category "Manufacturer's declaration"
